

"In order to change an existing paradigm you do not struggle to try and change the problematic model. You create a new model and make the old one obsolete. That, in essence, is the higher service to which we are all being called."

-Buckminster Fuller

## OUR HEROES VALUES

### H – Honor

We believe true strength starts with honor. That means treating people better than we expect to be treated, showing respect for time, commitments, and contributions. We value people as individuals, not just roles, and we build trust from day one through transparency, gratitude, and fairness.

### E – Excellence

Excellence is our standard, not our goal. It shows up in how we focus, hire with purpose, and refine ideas until they are proven. For us, excellence is not about perfection, it is about creating products, services, and experiences that stand the test of time and always deliver beyond expectation.

### R – Relationship

We know real success is built on relationships, not transactions. Every connection, whether with a customer, team member, or partner, is nurtured with care. By sharing opportunities, celebrating introductions, and encouraging collaboration, we create a network rooted in abundance and mutual growth.

### O – Ownership

Ownership means taking responsibility, showing up with integrity, and empowering builders to shape their own future. We share equity with creators, offer flexible structures, and support people in choosing their own path. When everyone owns their work, success belongs to all of us.

### E – Empowerment

We exist to empower dreams. Through guidance, financial tools, and opportunities, we help people build legacies for themselves and their families. Empowerment here means freedom: freedom to grow wealth, freedom to break the rat race, and freedom to pursue goals with confidence and support.

### S – Service

Service is the heartbeat of everything we do. We serve our people, customers, and partners with genuine care, creating opportunities that enrich lives. By putting families first, rewarding extra effort, and keeping service at the center of every decision, we build more than a business, we build a community.
